

Comparative Civilizations: Comparing aspects of Ancient Civilizations

Books

We have many books on the following subjects in the LSS library. Some are pulled and on display for your use. For others, you will need to use the Book Search Catalogue. Try either a **keyword search** on your topic, or perhaps one of the following **subject searches**:

Japanese art

Chinese art

Ancient Rome (or Greece or Egypt)

Egyptian Mythology (or Greek or Roman)

Gods and goddesses

Mythology

Folklore

Architecture, Islamic (or Japanese or Chinese etc.)

Ancient Civilizations

Hinduism (or other religion)

Cambodia (or other country name)

Southeast Asia (or other geographic areas)

If you use a “**power search**” to combine terms (e.g. <architecture> on one line, <Egypt> on another), you will also find print material.

Tools:

Compare and contrast matrix for note taking (graphic organizer)
